TORNADO FLUSH

Tornado flush is a powerful efficient toilet flushing system that uses a combination of centrifugal and downward water flow. This technology creates a whirlpool-like action, effectively cleaning the bowl while using less water. The tornado flush is designed to minimize splashing and maximize cleanliness, ensuring a thorough and hygienic flush every time.

RIMLESS HEDGING FLUSH

This rimless design improves hygiene by reducing hidden areas where dirt and bacteria can accumulate. The efficient water flow provides a thorough, splash-free flush while making cleaning much easier, delivering a sleek, sanitary, and low-maintenance solution for bathrooms.

WASHDOWN FLUSH

Washdown flush is known for its simplicity and effectiveness. Typically has a larger water surface area, reducing odors and helping keep the bowl clean. It's an efficient, cost-effective choice and offering reliable performance with minimal maintenance.
