INSPIRING DESIGN

About us

At SANIWARE, we have a strong desire to improve everyone's quality of life through innovation and change the perception of what a bathroom should be. Thus, we here at SANIWARE are dedicated to providing solutions that improve the cleanliness and comfort of residential and non-residential spaces with our top-of-the-line products. The bathroom is a small personal space that deserve our special attention; therefore, we ensure that our products are of good quality, comfortable and fits your sanitary ware needs!

By continuously expanding and developing new products, we hope to become everyone's sanitary ware's one stop solution. Our product range covers the entire spectrum of the market from strictly practical and affordable design to high-end and modern fitting. From bathtubs to toilets, washbasins, bidets, and urinals, you name it, we have it.

Being a homegrown company from Malaysia, SANIWARE is committed to supporting our local partners and customers as we aim to become the industry leader and premier supplier of sanitary ware products here.

HDJI MAIN PIPE ASSIST PRESSURE PUMP

Most of the residential area are facing low water pressure from main pipe water supply into our home. HDJI pump is specially designed for boosting water supply from main pipe water supply when flow pressure is low. It will effectively pulling main pipe water supply up to water storage tank and throughout entire building.

With "Anti Dry-Run Protection", it protects pump from dry-running when there is no water supply from main pipe and check pressure automatically in every 30 minutes. When main pipe water supply is back in normal, HDJI will automatically back in boosting operation.

HDJI is suitable for various usage: daily households, gardening, car wash, pump water up to solar water heater and water tank, etc.

- Compact structure and convenient installation.
- Stainless steel 304 impeller which has higher efficiency and no rusting.
- Energy saving, anti-lock up and environmental friendly.
- Integrating pressure sensors, pressure tank, circuit board.
