Stainless Steel Booster Pump

APPLICATION:

- Water treatment processes.
- Industrial cleaner.
- Water boosting on process, heating and cooling for industrial process.
- Air-conditioning system, Air freshening, heater device (soft water).
- Fertilization / metering system.
- Water supply and boosting (drinking water, light chlorine water).

MOTOR:

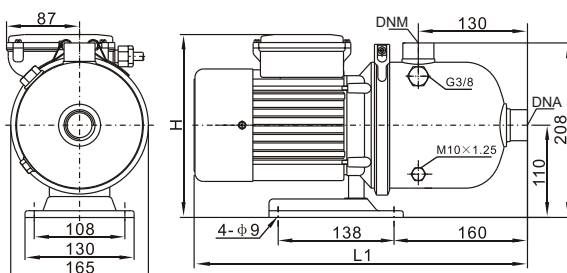

- 2-pole induction motor;
- Single phase : 1 x 220~240V/50Hz,
- Three phase : 3 x 380~415V/50Hz; if required
- Motors of other voltages are available upon request.

WORKING CONDITIONS:

- Thin, clean, non-flammable and non-explosive liquid containing no solid granules and fibers.
- When the density or viscosity of to-be conveyed liquid is larger than that of water, it is necessary to select a driving motor of high power.
- Medium temperature:
standard model : -20°C ~ +70°C ;
high temperature : -20°C ~ +104°C ;
- Environmental temperature : ≤+50°C
- Max. working pressure: 1.0MPa

Intelligent Inverter Home Stainless Steel Booster Pump

SQ INVERTER I PDH30

- Variable frequency drives.
- Control and protect pumping systems based on changing pump speed.
- Variable frequency drives. Maintain a constant desired physical dimension (such as pressure, flow, temperature or others).
- Energy savings.
- Compatible with any Saniware Pump.

SMF5-PDH30

APPLICATION:

- Multistage stainless steel Impeller
- Advance welding equipment, heat treatment.
- High strength, no deformation, long lifespan, safe.
- Mechanical seal to ensure watertight in long-time continuous operation.
- Aluminum frame: low-noise and less-vibration and high durability and reliable.
- Continuous duty.

FEATURES & BENEFITS:

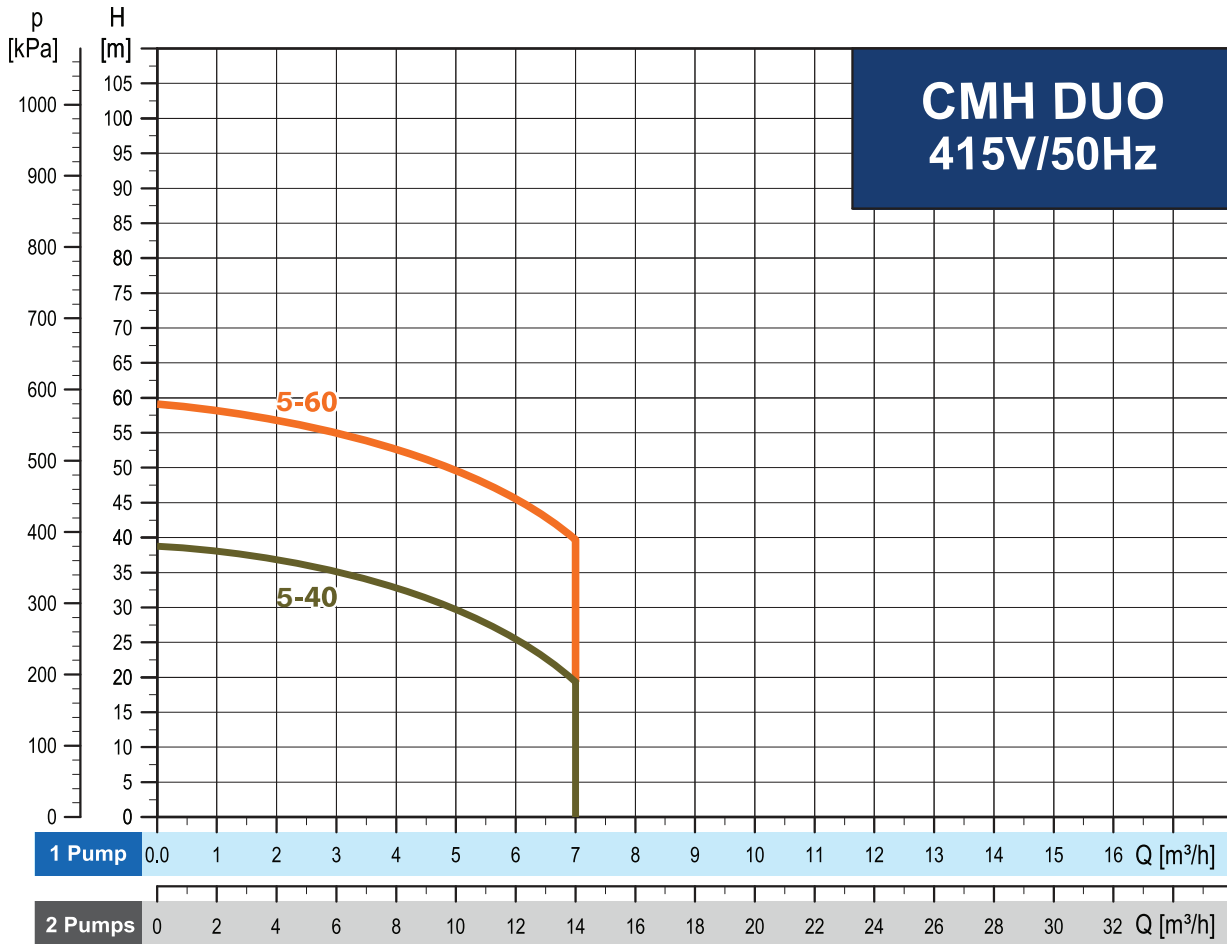

- Stainless steel Inlet & Outlet
- Dry-running Protection
- Energy & Cost Saving
- Variable Speed & Pressure Control
- Constant Pressure
- Digital Display

WORKING CONDITIONS:

- Thin, clean, non-flammable and non-explosive liquid containing no solid granules and fibers.
- When the density or viscosity of to-be conveyed liquid is larger than that of water, it is necessary to select a driving motor of high power.
- Medium temperature:
 - standard model : -20°C ~ +70°C ;
 - high temperature : -20°C ~ +104°C ;
- Environmental temperature : ≤ +50°C
- Max. working pressure: 1.0MPa
